How to collect and package your hair:

To collect hair from your horse go to the very end of the tail root farthest from the body. Take hair from the center where it is the longest. Depending on your order I will let you know how much to collect. Place a rubber band around the hair and put it all into a plastic bag. You may wash the tail prior to collecting the hair but there is no need to add any conditioner. Send the bag in an envelope or box to:
